| | inspection of his oral cavity revealed many missing teeth and several molar teeth in various stages of decay. The sores could not be visualized due to the low level of light. In a telephone interview with Resident #10's son, he reported that he had been informed about his father's dental pain on 5/11/10, but had not been made aware of the urgent need for medical care. Review of the records revealed that Resident #10's physician had not been contacted despite repeated complaints of severe mouth and tooth pain over the course of several days. After the complaint investigation, Resident #10 was finally seen in a local emergency room and was prescribed antibiotics, pain medication and given a referral for follow up dental care.
